Welcome to **MechEase** Engineering and Technology! Since our establishment, we have been dedicated to delivering top-notch industrial machining and fabrication services.

MechEase Engineering and technology is being Established in the year 2019 as a solution provider having core competency in Pressed parts, Welding assemblies, fabrication, machining, new product design and development.

Our organization maintains a high skilled staff of experienced professionals having worked with India's Leading Automobile companies & their Tier 1, 2.

We have achieved a good working experience, hence developed our facilities with state-of-the-art manufacturing facility to keep a hold on extensive quality requirements which our customers and we are able to deliver Cost Effective solutions with Best Manufacturing Quality in a short lead time.

About US

We are specialized in Sheet metal fabrication and Machining processes

- Press parts
- Welding assemblies
- Fabrication
- Machining
- Tool room

Design and Manufacturing Capabilities

Manufacturing strength

Machine set up :

- 1) Press Machines
- 2) Welding Robot (Yaskawa)
- 3) Wire Bending Machine
- 4) CNC Wire cutting Machine
- 5) VMC Machines
- 6) CNC Turning Machine
- 7) Tig Welding machine
- 8) CO2 Welding Machines
- 9) CNC Cutting

Design :

Team of skilled engineers having experience in 2D, 3D modeling & Design of material handling equipment's and Auto Products

Design Software's Used-

Auto CAD, Catia and Solid works

Products portfolio

- **Construction shoe assly**
- **High thickness brackets assly**
- **Precision machined components**

Products portfolio

- **Hardened Bushes**
- **Soft machined Bushes**

- **Hardened Pins**
- **Guide Pins**

- **Shafts**

Our Vision

01

The Intend of every MechEasian is to satisfy customer with fulfilment of expectation raised by them.

02

Quality is first priority

03

We help companies to unlock the power of design-driven product development
